After analyzing the data, it was found that the same handful of companies own the majority of VPN brands. However, these companies aren't always privacy-friendly, and they're often based in places that aren't always safe for user data. Here is a list of the few parent companies that own many popular VPN brands:

**British Parent Company:**
- **Acts Mobile Networks**
- **Hi Security**
- **Avast**
- **Signal Lab**

**Hong Kong Parent Company:**
- **AnchorFree**
- **VeePN (veepn.com)**

**Dutch Parent Company:**
- **Edelino Commerce Inc**
- **Kape Technologies**
- **Hotspot VPN**
- **Newbreed Network**

**Seychelles Parent Company:**
- **Super SoftTech**
- **Giga Studio FIFA VPN**
- **Hi Security**
- **Avast**

**Pakistani Parent Company:**
- **Act Mobile Networks**
- **Hi Security**
- **Avast**

**American Parent Companies:**
- **Hi Security**
- **Avast**
- **Signal Lab**
- **LEILEI**
